TO WHOM IT MAY CONCERN

Government Quarters at Lee On Road, Kowloon

As the Interior Designers for the above captioned Government Quarters, we confirm that Fuji (China) Decoration & Engineering Co., Ltd., who were the fitting-out contractor for the eight Main Tower Entrances, the Shopping Arcade, Clubhouse and the Podium External Façade Granite Cladding, ran the complex project in a professional manner. They responded well considering the extremely tight construction programme, while achieving an acceptable standard of workmanship.

We would have no hesitation in recommending Fuji (China) Decoration & Engineering Co., Ltd. for similar future projects or including Fuji in our own tender lists.

Yours faithfully,
For Richards Basmajian Limited

Peter Basmajian
