Interior Fitting Out Works for
Tung Chung Club House Phase I – C102/13

We are the Interior Designer of the captioned project, we hereby confirm that Fuji (China) Decoration & Engineering Co., Ltd. were the contractor for the whole fitting out, electrical & mechanical installation of the project.

The project involves a total floor area of 2900m², with very high quality requirement on workmanship and strict programme to fit the client and our requirements.

We are very impressed by the positive attitude of Fuji in monitoring the progress and co-ordination with all E/M sub-contractors and all other parties concerned in completing the job. We found Fuji a competent and professional contractor in resolving complex site problems and co-operate with the design team and project manager. They have also demonstrated their technical ability and management skill in completing the project to the required standard.

We strongly recommend Fuji to carry out project of similar nature.
