

To Whom It May Concern

Dear Sirs,

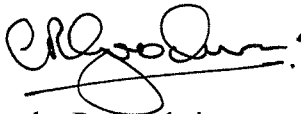

Crown Macau Interior Fit Out

I herewith confirm that Fuji (China) Decoration & Eng. Co. Ltd. were responsible for the Interior Fit Out of significant parts of the Crown Macau Hotel [The Crown Towers] that included all the guestrooms, corridors and lift lobbies (L18 to L36), the Spa and Health Club (L15 & L16) and the sky lobby (L38). In addition they were also the supplier for all loose furniture for all the Villas and Junior Suites in the Crown Towers.

I am pleased to advise that Fuji (China) Decoration & Eng. Co. Ltd. consistently provided a high quality interior fit out despite the significant challenges of completing this Hotel in an extremely compressed time frame time under very difficult circumstances. Fuji worked hard in a professional and cooperative manner during the construction period and successfully completed the aforementioned fit out works and loose furniture supply and installation in phases, with the last few Villas being ready for use, defect free, by 14th July 2007.

I am satisfied with the product of their work and am happy to recommend Fuji (China) Decoration & Eng. Co. Ltd. to you for interior fit out works.

Yours faithfully,

Charles R. Goodwin.

Former Project Director for the Construction of the Crown Macau 2006-2007.
